Security Kit — the seven layers, as code

@lacspace/apikey

API keys

v1.1.1 · zero dependencies · isomorphic · generated 2026-09-01

Overview

Issue prefixed, high-entropy keys (lac_live_...), store only the SHA-256 hash, show the last 4, and verify in constant time — exactly how Stripe/GitHub-style keys work.

Package: @lacspace/apikey · v1.1.1

Kit: Security Kit — the seven layers, as code

Runtime: zero dependencies · isomorphic

Install

```
npm i @lacspace/apikey
```

Quick example

```
await verifyApiKey(key, storedHash)
```

Returns: **true / false**

Tips & warnings

TIP

Zero-dependency and isomorphic — safe to import on the server, in the browser, on the edge and in React Native. It tree-shakes, so you only ship what you import.
