Developer Documentation

SEO Kit — everything crawlers & AI read

@lacspace/robots

robots.txt + AI blocking

v1.2.0 · zero dependencies · generated 2026-09-01

Overview

Typed per-user-agent rules, sitemap refs, a parser, framework presets (Next.js, WordPress, Shopify) and an `isAllowed()` crawlability matcher — plus a one-liner to block AI crawlers (GPTBot, ClaudeBot, CCBot, Google-Extended and 14 more).

NOTE

When to use — Generating ``robots.txt`` from config, including AI-crawler controls.

Package: `@lacspace/robots` · v1.2.0

Kit: SEO Kit — everything crawlers & AI read

Runtime: zero dependencies

Install

```
npm i @lacspace/robots
```

Quick example

```
blockAiBots({ sitemap: "/sitemap.xml" })
```

Returns: **robots.txt**

Tips & warnings

TIP

``robotsForSite(site.config)`` keeps robots in sync with your canonical host and sitemap URL.

TIP

Zero-dependency and isomorphic — safe to import on the server, in the browser, on the edge and in React Native. It tree-shakes, so you only ship what you import.
